

Announcement and Call for Papers

**5th INTERNATIONAL
WORKSHOP
ON TEACHING IN
PHOTOVOLTAICS**

IWTPV'10

Organised by the IET Czech Network in co-operation with the
Faculty of Electrical Engineering
(Department of Electrotechnology)
Czech Technical University in Prague

Prague, 25 - 26 March 2010

BACKGROUND: The 5th International Workshop on Teaching Photovoltaics (IWTPV'10) provides forum for technical discussion in the field of photovoltaic, especially problems connected with education in this field

AREAS OF INTEREST:

Pedagogical aspects (methodology, course curricula, orientation, laboratory practicum) in areas

-photovoltaic cells and modules (materials, physics, modelling technology, diagnostics)

-photovoltaic systems

-advanced applications, reliability and diagnostics

A round table discussion oriented on topical problems of research and education in the field of photovoltaics will be organised in the framework of the Workshop.

Presented papers will be published in the proceedings, which will be distributed at the Workshop registration

WORKING LANGUAGE: The working language on the Workshop is English. It will be used in the printed material, presentations and discussion.

INTERNATIONAL PROGRAMME COMMITTEE:

Prof. Vitezslav Benda, Czech Technical University in Prague (chairman)

Prof. Luis Castañar, Universidad Politécnic e Cataluña, Barcelona

Prof. Socrates Kaplanis, Technological Educational Inst. of Patra

Dr. Tom Markvart, University of Southampton

Prof. Jean-Michel Nunzi, Lab. POMA, Anger

Dr. Jatindra Kumar Rath, Utrecht University

Dr. Stanislaw M. Pietruszko, Warsaw University of Technology

Prof. Mitko Stojev, University of Blagoevgrad, Bulgaria

Dr. Veronika Timar-Horvath, Budapest University of Technology

.

PAPER SUBMISSION:

A summary of about 300 words is required for review.

It should be sent to the IWTPV'10 Organising Committee in an electronic form – (.doc and .pdf are acceptable)

before *15 January, 2010*

Contact address:

Prof. Vitezslav Benda
CTU Prague, Department of Electrotechnology
Technicka 2, 166 27 Praha 6
tel. +420 2 24352163,+420 2 2435 2123,
fax +420 2 2435 3949
email: benda@fel.cvut.cz
www.theiet.cz

REGISTRATION FEE:

The registration fee of approximately 100 EUR will cover the cost of the workshop, documentation, proceedings, refreshments and social program.

VENUE:

Prague, the capital of the Czech Republic, lies on the 50th northern parallel in the very heart of Europe. It has more than 1,200,000 inhabitants. For a thousand years, Prague has been the seat of Czech kings, emperors and presidents. Prague's history goes back to the 9th century. The River Vltava flows through Prague, with 10 islands and 18 bridges within the city. Known as "Mother of Cities" and "Golden Prague", it has more hills than Rome and over 500 spires.

A count of Prague's culturally significant buildings comes to more than 2,000 and the city has 27 permanent theatres, 16 museums and 130 galleries. As a university town since 1348, Prague has 8 institutes of higher education, where almost 55,000 students now study at 37 faculties.

The origin of the Czech Technical University dates back to 1707, when the Austrian Emperor Joseph I established the Czech Institute of Engineering Education, reorganised in 1806 as the Prague Polytechnic. Electrical Engineering as an independent course has been taught at the Czech Technical University since the 1884/85 academic year. A separate Department of Electrical Engineering was established in 1891/92. The separate Faculty of Electrical Engineering has existed since 1950. It has conferred more than 26,000 Electrical Engineer degrees and 1500 PhD degrees to students from many countries.
